

# Logging into your BlueTie Home Account

This document will walk you through how to log in to your new bluetie home account and existing excite account, after upgrading to our basic or premium plan.

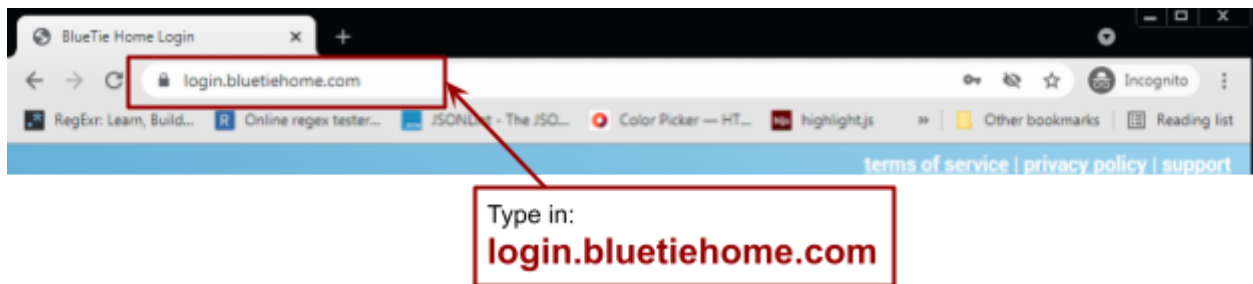

## Step 1: Open your browser of choice.

Your browser is likely one of the following icons on your computer:

## Step 2: Enter login.bluetiehome.com into your address bar

The address bar is the text box at the top of all browsers.

### Step 3: Enter your email address and password

The screenshot shows a web browser window with the URL `login.bluetiehome.com`. The page features the BlueTie Home logo at the top. Below the logo, there are two input fields: one for 'email address' and one for 'password'. A blue 'login' button is positioned below the password field. There is also a 'remember me' checkbox and links for 'forgot password' and 'need an account?'. Two callout boxes with red borders and arrows provide instructions: one points to the email field with the text '1: Type in your username', and another points to the password field with the text '2: Type in your password.' A third callout box at the bottom right contains the text: '\*\* If you are an excite user, this is the same password as your excite account.'

### Step 4: Click Login Button

This is a close-up view of the login form. The 'email address' field contains the text '@bluetiehome.com'. The 'password' field is empty. The blue 'login' button is highlighted with a red box and a callout that says 'Click "Login" To log into your account.' Below the login button is a 'remember me' checkbox, which is also highlighted with a red box and a callout that says 'You can click on "remember me" and the next time you visit this page, your username will be entered for you.' The 'forgot password | need an account?' link is visible at the bottom.
